  - LinkedIn : [linkedin.com/in/ridmika-sankalpanee](https://linkedin.com/in/ridmika-sankalpanee)

## PROFESSIONAL SUMMARY

Experienced in developing and scaling applications using Angular, React, TypeScript, .NET Core, and C#. Skilled in building SPAs with, Angular Material, and React components, and designing robust RESTful APIs using ASP.NET Core and Entity Framework. Proficient in SQL Server, OracleDB, and full-cycle development in Agile/Scrum environments.

## TECHNICAL SKILLS

- Programming Languages:** JavaScript, TypeScript, Dart, C#, Java
  - Frontend Development:** Angular, React, Angular Material, RxJS.
  - Backend Development:** .NET Core, Node.js, Express.js.
- Mobile Development:** Flutter
  - Databases:** MySQL, OracleDB, PostgreSQL
  - Tools & Methodologies:** Git, Azure DevOps, REST APIs, Agile/Scrum, CI/CD, AWS

## WORK EXPERIENCE

- Associate Software Engineer : PacificCode Pvt Ltd.**

- Contributed to developing full-stack applications using react and .NET Core (C#), integrating RESTful APIs with Entity Framework.

**Oct 2025 - Present**
- Software Developer : Renewa Energies**

- Built and maintained a responsive inventory management system using Angular and dotnet
  - Implemented state management, API integration, and dynamic UI components.

**Aug 2024 - Jun 2025**
- Software Engineer (Intern): Azend Technologies.**

- Developed full-stack applications using Angular (TypeScript, RxJS) and .NET Core (C#), integrating RESTful APIs with Entity Framework.
  - Worked in an Agile/Scrum environment, focusing on UI/UX, code optimization, and version control with Azure DevOps.

**Jan 2024 - July 2024**

## PROJECTS

- Vehicle Service Management System (SaaS):** Contributed to frontend development and API integration using Next.js and Java for a SaaS platform managing vehicle service workflows. **pos.aurionx.lk**
  - Vehicle Booking Website:** Built a fully responsive SPA in React for a real-time vehicle booking system with dynamic routing and state management. **www.sunbeamcabs.com**
  - POS System (Desktop Application):** Developed core modules of a .NET-based desktop POS system handling sales, inventory, and customer management. **GitHub Link**
  - Photographer Booking System:** Designed the frontend in Next.js for a web platform allowing users to browse, select, and book professional photographers. **GitHub Link**
  - AI-Powered Code Summarization Model:** Engineered a machine learning model that extracts key concepts and code snippets to auto-summarize software engineering notes. **(Research project – pending publication)**
  - AI-Powered Skin Cancer Detection App:** Developed a React Native mobile application that analyzes skin lesions using AI, featuring secure authentication, real-time image analysis, medical-grade UI/UX, history tracking, and educational content. **GitHub Link**
  - Event Management System:** Developed a full-stack ASP.NET Core web application with RESTful APIs and MySQL, enabling secure user authentication, event creation/management, and real-time ticket booking. **GitHub Link**

## EDUCATION

- B.Sc. (Hons) in Information Technology**

University of Moratuwa (CGPA - 3.12)

**2021-2025**
- G.C.E Advanced Level : Bio-Science ( English medium)**

Rathnawali Balika Vidyalaya Gampaha (A|A|C)

**2016-2018**
- G.C.E Ordinary Level : (English medium)**

Galahitiyawa Central College (9 A's)

**2015**
